

Equipment

Providers must take reasonable steps to ensure the safety of children, staff and others on premises.

Health

The provider must promote the good health of children attending the setting.

23. Health and safety general standards

Ducklings pre-school policy statement

Ducklings pre-school believes that the health and safety of children is of paramount importance. We make our pre-school a safe and healthy place for children, parents, staff and volunteers.

- We aim to make children, parents and staff aware of health and safety issues and to minimise the hazards and risks to enable the children to thrive in a healthy and safe environment.
- Our member of staff responsible for health and safety is: Julie Cook
- She is competent to carry out these responsibilities.
- She has undertaken Level 3 Award in Health and Safety in the workplace training and regularly updates her knowledge and understanding.
- We display the necessary health and safety poster on the back of the staff toilet door and on the side of the metal cupboard in the Ducklings pre-school room.

Insurance cover

We have public liability insurance and employers' liability insurance. The certificate for public liability insurance is displayed a notice board in the Ducklings pre-school room.

Procedures

Awareness raising

- Our induction training for staff and volunteers includes a clear explanation of health and safety issues so that all adults are able to adhere to our policy and procedures as they understand their shared responsibility for health and safety. The induction training covers matters of employee well-being, including safe lifting and the storage of potentially dangerous substances.
- Records are kept of these induction training sessions and new staff and volunteers are asked to sign the records to confirm that they have taken part.
- Health and safety issues are explained to the parents of new children so that they understand the part played by these issues in the daily life of the pre-school.

- As necessary, health and safety training is included in the on-going training plans of staff, and health and safety is discussed regularly at staff meetings.
- We operate a no smoking policy.
- Children are made aware of health and safety issues through discussions, planned activities and routines.

Windows

- Low level windows are made from materials that prevent accidental breakage or are made safe.

Doors

- We take precautions to prevent children's fingers from being trapped in doors.

Floors and walkways

- All our floor surfaces are checked daily to ensure they are clean and not uneven, wet or damaged. Any wet spills are mopped up immediately.
- Walkways and stairs are left clear and uncluttered.

Electrical/gas equipment

- We ensure that all electrical/gas equipment conforms to safety requirements and is checked regularly.
- Our boiler/electrical switch gear is not accessible to the children.
- Electric sockets, wires and leads are properly guarded and we teach the children not to touch them.
- There are sufficient sockets in our pre-school to prevent overloading.
- We switch electrical devices off from the plug after use.
- We ensure that the temperature of hot water is controlled to prevent scalds.
- Lighting and ventilation is adequate in all areas of our pre-school, including storage areas.

Storage

- All our resources and materials, which are used by the children, are stored safely.
- All our equipment and resources are stored or stacked safely to prevent them accidentally falling or collapsing.

Outdoor area

- Ducklings outdoor area is securely fenced. All gates and fences are safe.
- Our outdoor area is checked for safety and cleared of rubbish, animal droppings and any other unsafe items before it is used.
- Adults and children are alerted to the dangers of poisonous plants, herbicides and pesticides.
- We check that children are suitably attired for the weather conditions and type of outdoor activities; ensuring that sun cream is applied and hats are worn during the summer months.
- We supervise outdoor activities at all times.

Hygiene

- We seek information from Public Health England to ensure that we keep up-to-date with the latest recommendations.
- Our daily routines encourage the children to learn about personal hygiene.
- We have a daily cleaning routine for the pre-school, which includes the Ducklings room, kitchen, rest area, toilets and nappy changing areas. Children do not have access to the kitchen.
- We have a schedule for cleaning resources and equipment, dressing-up clothes and furnishings.
- The toilet area has a high standard of hygiene, including hand washing and drying facilities and disposal facilities for nappies.
- At Ducklings we implement good hygiene practices by:
 - cleaning tables between activities;
 - cleaning and checking toilets regularly;
 - wearing protective clothing - such as aprons and disposable gloves - as appropriate;
 - providing sets of clean clothes; and
 - providing tissues and wipes.

Activities, resources and repairs

- Before purchase we check equipment and resources to ensure that they are safe for the ages and stages of the children currently attending the pre-school.
- We keep a full inventory of all items in the pre-school for audit and insurance purposes.
- The layout of our play equipment allows adults and children to move safely and freely between activities.
- All our equipment is regularly checked for cleanliness and safety, and any dangerous items are repaired or discarded.
- We make safe and separate from general use any areas that are unsafe because repair is needed.
- All our materials, including paint and glue, are non-toxic.
- We ensure that sand is clean and suitable for children's play.
- Physical play is constantly supervised.
- We teach children to handle and store tools safely.
- We check children who are sleeping regular intervals of at least every ten minutes. This is recorded with the times checked and the initials of the person undertaking the check.
- If children fall asleep in-situ, it may be necessary to move or wake them to make sure they are comfortable.
- Children learn about health, safety and personal hygiene through the activities we provide and the routines we follow.
- Any faulty equipment is removed from use and is repaired. If it cannot be repaired it is discarded. Large pieces of equipment are discarded only with the consent of the supervisor.

Jewellery and accessories

- Duckling's staff do not wear jewellery or fashion accessories, such as belts or high heels, that may pose a danger to themselves or children.

- Parents must ensure that any jewellery worn by children poses no danger; particularly earrings which may get pulled, bracelets which can get caught when climbing or necklaces that may pose a risk of strangulation.
- We ensure that hair accessories are removed before children sleep or rest.

Safety of adults

- We ensure that adults are provided with guidance about the safe storage, movement, lifting and erection of large pieces of equipment.
- We provide safe equipment for adults to use when they need to reach up to store equipment.
- We ensure that all warning signs are clear and in appropriate languages.
- We ensure that adults do not remain in the building on their own.
- We record the sickness of staff and their involvement in accidents. The records are reviewed termly to identify any issues that need to be addressed.

Control of substances hazardous to health

- Ducklings staff implement the current guidelines of the *Control of Substances Hazardous to Health Regulations (COSHH)*.
- We keep a record of all substances that may be hazardous to health - such as cleaning chemicals and where they are stored.
- Hazardous substances are stored safely away from the children.
- We carry out a risk assessment for all chemicals used in the setting. This states what the risks are and what to do if they have contact with eyes or skin or are ingested.
- We keep all cleaning chemicals in their original containers.
- We keep the chemicals used in the pre-school to the minimum in order to ensure health and hygiene is maintained. We do not use:
 - bleach;
 - anti-bacterial hand wash, unless specifically advised during an infection outbreak such as Pandemic flu; or
 - anti-bacterial cleaning agents, except in the toilets, nappy changing area and food preparation areas.
 Anti-bacterial spays are not used when children are nearby.
- Environmental factors are taken into account when purchasing, using and disposing of chemicals.
- All members of staff are vigilant and use chemicals safely.
- Members of staff wear protective gloves when using cleaning chemicals, if needed.

Legal framework

- Health and Safety at Work Act (2015)
- Management of Health and Safety at Work Regulations (2006)
- Electricity at Work Regulations (2019)
- Control of Substances Hazardous to Health Regulations (COSHH) (2005)
- Manual Handling Operations Regulations (1992) (Amended 2004)
- Health and Safety (Display Screen Equipment (DSE)) Regulations (1992) (Amended 2002)
